Subject Index to Volume 12

A

Atrial pacing, effectiveness of, in macaca mulatta as a function of pacing pulse intensity, modification by atropine and propranolol 32
Autokinesis and proflex, editorial 125

D

Digital rheoplethysmography, use for the study of psychogenic and neurogenic factors in man 3

E

ECG Changes, observed during Pavlovian conditioning in a rhesus monkey following coronary arterial occlusion .. 229
EEG feedback training, in the treatment of epilepsy 112
EEG, operant conditioning of, in two patients with epilepsy 93
EEG operant conditioning, operant conditioning of epileptic neurons in monkeys and its theoretical application in humans 130
Electroencephalographic Biofeedback Methodology, and management of epilepsy 147
Epilepsy, EEG Feedback training in the treatment of 112
Epilepsy, Electroencephalographic biofeedback methodology and management of epilepsy 147
Epilepsy, operant conditioning of the EEG in two patients with 93
Epileptic neurons, operant conditioning of, in monkeys, and its theoretical application of EEG operant conditioning in humans 130

F

Fetal asphyxia, by maternal psychological stress 51

H

Human temporal behavior, and discrimination—reversal learning 232
Hypersexuality, and limbic system seizures 187

L

Learning, discrimination—reversal, human temporal behavior and 232
Limbic system seizures, hypersexuality and 187

M

Macaca mulatta, effectiveness of atrial pacing in, as a function of pacing pulse intensity, modification by atropine and propranolol 32

O

Objective and subjective editorial 1

P

Pavlovian conditioning, ECG changes during, in a rhesus monkey following coronary arterial occlusion 229
Pigmentometer, a new device for measuring skin albedo, relating skin color with a series of physiological measures 19
Physiological-behavioral coupling, research in the Soviet science of higher nervous activity 41
Psychogenic and neurogenic factors in man, use of digital

rheoplethysmography for the study of 3
Psychological stress, fetal asphyxia by 51

R

Rhesus monkey, ECG changes observed during Pavlovian conditioning, following coronary arterial occlusion 229

S

Sensorimotor EEG operant conditioning, experimental and clinical effects 63
Skin albedo, use of the pigmentometer to measure, relating skin color with a series of physiological measures 19
